

July – August 2007 Dance Schedule

Open to all – even to people with 2 left feet. Learn to dance with style and proper techniques. Learn to distinguish the beats of the music and dance it in tempo. The importance of dancing with the tempo comes from the philosophy that dancing is the “physical extension” of the music. During the lessons, other social dance styles (e.g. Reggae, Night-club 2-step, Bachata, Cumbia and Salsa) will be introduced. Of course, all Latin dances (International and American Styles) as well as the Standards and Smooth, will be covered.
